CGPA : 6.5

Subjects / Electives	Operating system , Computer structure and organization , Data Structures Algorithms
Technical Proficiency	Python , DSA, SQL, Excel, Power BI, C Programming , C++, Java, JavaScript , MATLAB, HTML + CSS, AutoCAD
LANGUAGES KNOWN	
English ,Hindi,Marathi	
PROJECTS	
Research -Paper AI Assistant - Artificial Intelligence NLP Retrieval-Augmented Generation (RAG) May 2025 - Dec 2025 Research -Paper AI Assistant : Built a dual-mode RAG-based system that generates IEEE-formatted research papers from GitHub repositories and enables interactive Q&A on uploaded research PDFs. Tech Stack: Streamlit , LangChain , Groq (LLaMA 3.x), FAISS, ChromaDB , Hugging Face embeddings , SQLite , ReportLab .	
Complaint Management System - Data Structures & Algorithms ,Web Development Feb 2025 - May 2025 <ul style="list-style-type: none">Designed a web-based Complaint Management System with a simple and intuitive UI for customers to submit complaints and admins to manage operations .Implemented core functionalities including employee management , complaint viewing by ID, total complaint tracking , and prioritization of urgent complaints .Utilized Linked List, Queue, and Stack data structures for efficient complaint handling and deployed the application locally using XAMPP.	
SQL Data Analysis Project – Bookstore Management - Data Analytics SQL Database Management May 2024 - Aug 2024 <ul style="list-style-type: none">Built an end-to-end SQL portfolio project using PostgreSQL to analyze bookstore data from multiple related CSV files (books, customers, orders).Designed relational tables and performed JOINS, aggregations , GROUP BY, HAVING , and date-based analysis to extract business insights such as revenue , top-selling books , customer behavior , and genre-wise performance .Executed both basic and advanced SQL queries to solve real-world analytical problems , demonstrating strong data querying , analysis , and reporting skills suitable for data analyst roles .	
inlineTerminal - AI-Enhanced CLI Tool - Artificial Intelligence Developer Tools Jan 2024 - May 2024 <ul style="list-style-type: none">Developed an AI-powered CLI tool to simplify terminal workflows using Gemini API, enabling natural-language to command conversion , virtual environment management , and Docker-based safe execution .Built an interactive CLI with autocompletion and AI suggestions , added Docker sandboxing for secure command execution , and improved cross-platform compatibility (Windows/Linux).Enhanced usability and reliability by fixing critical command -handling issues , adding help/contact utilities , and supporting Node.js projects and coding challenges . Reduced manual command entry by ~30%, improved AI query usability by ~25%, and ensured secure execution through containerized isolation .	
POSITION OF RESPONSIBILITY	
Purchase Coordinator , MindSpark '23 - COEP Technological University Jun 2023 - Sep 2023 <ul style="list-style-type: none">Role: Purchase Coordinator for MindSpark '23, the annual technical fest of COEP Technological University , contributing to the Economic Empowerment initiative by handling procurement operations .Responsibilities : Managed end-to-end procurement activities including vendor coordination , price negotiation , quality assurance , and timely sourcing of materials . Ensured smooth execution of event operations while maintaining cost efficiency .Skills Acquired : Developed negotiation , vendor management , budgeting , and coordination skills. Improved communication , decision-making , and problem -solving abilities in a high-pressure , time-bound environment .	
EXTRA CURRICULAR ACTIVITIES	
Traveling , Listening Music
